DM|A Newsletter

June 2016 (No. 46)

Welcome to our newsletter, once a month we will update you with news about David Matero Architecture and our community. We welcome your comments, questions and feedback.

The Biospherical Institute

After a few meetings with the Bath Planning Board, and a bid process that helped nail the down the cost, the Biospherical Institute in Bath is making progress. Frohmiller Construction will soon be working on a new exterior egress stair on this historic, Victorian house across from Library Park.

Creature Double Feature

David was recently featured as part of Main Street Bath's ~~Business Double Feature~~ **Business Double Feature**. Each month MSB will feature Bath businesses and non-profits, to bring awareness to the wide variety of organizations in town in all areas of commerce and non-profits.

Views from the Job Site

If you want a good quality house, you have to have solid foundation. The Goose Rock House is currently about 8' in the air waiting for a new foundation by Corey Ratliff. While the main house is up in the air, the guest cottage is scheduled for completion this summer so the owner can begin enjoying Maine.

Save the Date!

It might be early, but add Saturday August 13 to your calendars for ~~Over the Moon and Under the Stars~~, a gala in the park. To celebrate Main Street Bath's 15th year anniversary, MSB will be hosting an evening of music, dance, friends and spirits at the Library Park in Bath. Dust off your Gatsby clothes and bring some friends, this is sure to be a blast.

Morse Boys Tennis

The Morse Boys Tennis teams finished the Class B South region regular season in second place with a record of 10-2 this year. Oskar played the entire year in third singles, and although his record was not what he wanted it to be, watching how much he has improved over the last 4 years has made it enjoyable. Morse won their first KVAC playoff game vs Freeport, but recently lost to Cape Elizabeth in the second round.

Views from the job site

Cottage Living is getting close to occupancy. The kitchen needs countertops and appliances, and there is still siding remaining on the exterior, but the light and views from the great room are wonderful! Construction by ~~Bunge Woodworks~~.

On the Drawing Board

With far-off water views, a sloping site and the desire for an energy efficient design, DMA is creating a new house in Harpswell. The challenge is to both recognize the views and allow natural daylight to enter the living spaces. Construction is scheduled for this fall by Oceanside Builders.

Morse High School Senior Prom 2016

We hope you enjoy our newsletter. Feel free to share this with your friends or send us their email to be added to our mailing list. Please contact us with any questions or comments or to be removed from the list.

Sincerely,

Cathy Matero
